

Model	EC-A1RAS-P
Power Supply	Input 100 – 240V ~ 50-60 Hz (charger)
Power supply method	Rechargeable (lithium ion battery, 18V)
Power Consumption	While charging: Approx. 40W After charging: Approx. 0.5W
Charging Time*1	Approx. 80 min (charging may take up to maximum of about 2 hours depending on the conditions of use, such as the surrounding temperature or duration of use)
Max Operation Time*2	High mode: 8 min Standard mode: 30 min
Dust Cup Capacity	0.13L
Base Unit Dimension	222mm W × 220mm D × 980mm H
Weight	1.5 kg (including base unit, suction head, pipe and battery) 1.1 kg (base unit)

\*1 Charging time varies depending on surrounding temperature and use conditions.

Battery needs to be replaced after being charged/discharged 1,100 times.

\*2 Maximum operation time based on Sharp's standard when a fully charged new battery is used.  
It varies depending on floor material, environment and use conditions.

#### SAFETY CAUTION

• Please read operation manual before use. • Do not vacuum heating oil, gasoline or cigarette. It causes fire disaster.

Be Original.

キレイって、楽しい。

Cleaning is fun.  
**RACTIVE Air**

床も高いところも、  
カンタン・きれい。

Floor, top shelves,  
it's so easy to clean.

What makes "RACTIVE Air" advantageous is it's easy to  
use for various places.

Not only for cleaning the floor but many other places  
where I may find dust.

Quick cleaning has never been so easy.

Now, where else should I clean next?

RACTIVE Air

Cordless vacuum cleaners are convenient,  
but are usually heavy and tedious to carry.  
It is hard to remove dust quickly.  
“RACTIVE Air” weights only 1.1kg.  
Including the pipe and head, weighing only 1.5kg.  
And powerful!  
It encourages me to clean more!

1.5kg

Total weight including the main body, battery,  
pipe and suction head.

#### Dry Carbon Pipe

The pipe is made of dry carbon, a lightweight and strong material used for aircraft and rockets. Even with such thinness, the pipe still remains sturdy.

#### Turbo Motor

Sharp pursues both ultra lightweight and suction power. Large capacity motor and centrifugation cyclone enable the product to powerfully vacuum fine house dust.

軽いって、いいね。  
It's lightweight, I love it.

# RACTIVE Air

# The new innovation in a vacuum cleaner

Our goal is to provide ease of use for everyone.

“RACTIVE Air” is a collection of cutting edge technologies in a compact body.

## Centrifugal Cyclone maintains a strong suction power

It separates dust and air to avoid blockage on filters.

## Quick Separate Charging

It takes only 80 minutes to charge the battery detached from the cleaner.<sup>\*1</sup>

## Floor Wiping Brush

It wipes surface of wooden floor to make it spick-and-span.

## Self Running

Brush rotation helps the cleaner to move forward on its own.

## Easy-to-Empty Dust Cup

Dust can be quickly disposed from the cup detached from the cleaner. The dust cup and filters are washable.

## Easy Hook

It's easy to hook the cleaner anywhere and start cleaning at any time.

## Rubber Grip Handle

Even when you hold the cleaner upward to clean high places, it is stable in your hand.
