

SHARP

True Brightness X True Color™

True to Life

AQUOS XLED

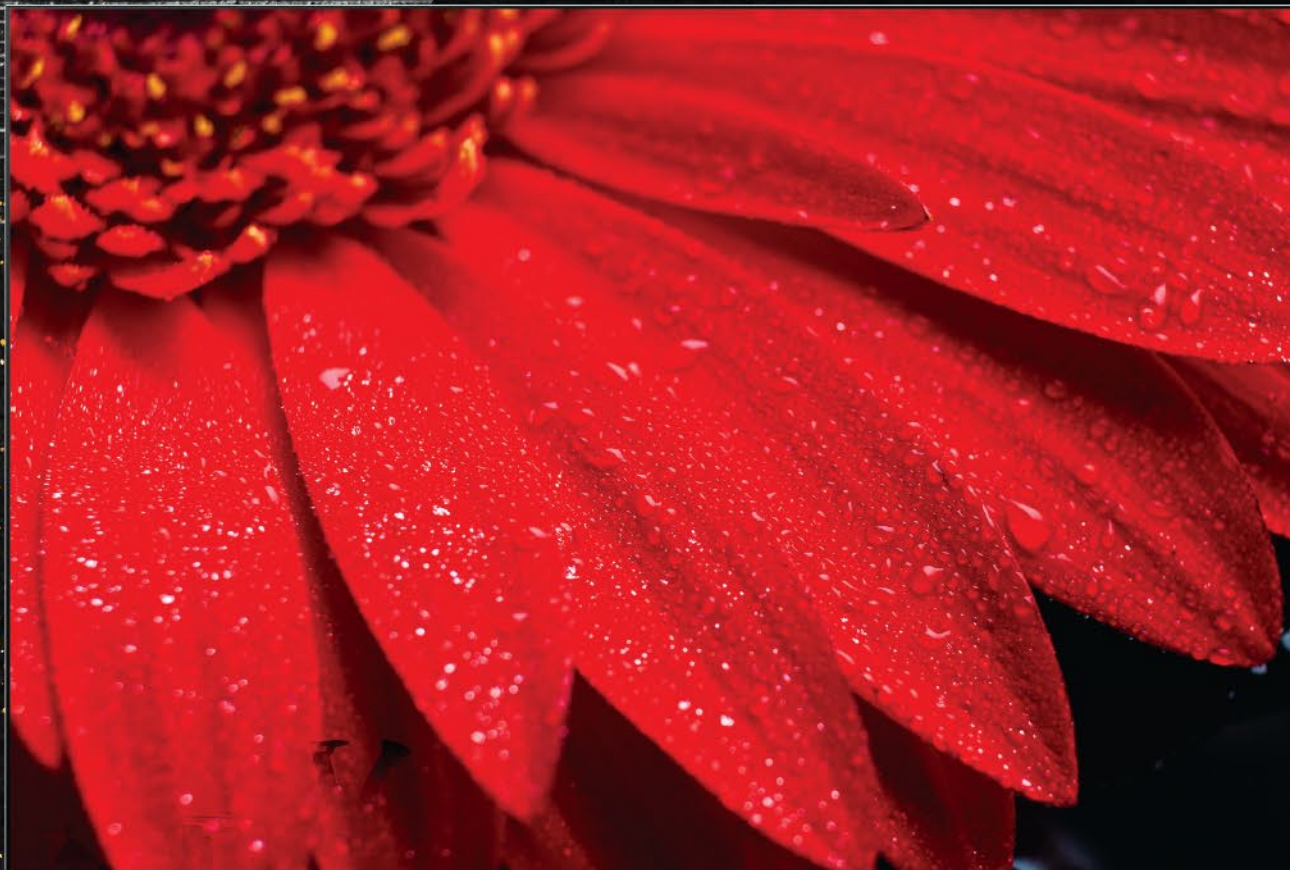

A new Standard TV in Brightness & Color Expression

True Brightness

Reproduces the brightness and colour that surround us. The precise control over 2,000 backlight dimming zones achieves an unrivalled dynamic colour contrast.

True Color

The rich Japanese vocabulary expresses red, blue and green in more than 250 words. The Deep Chroma QD allows for an extensive variety of colour expressions which will bring the colours to life in the same way your eyes see them in the real world.

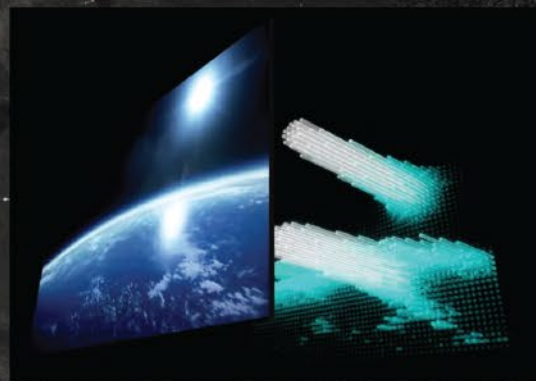

AQUOS XLED TECHNOLOGY

Xtreme mini LED
2000+
dimming zones

Conventional Dimming

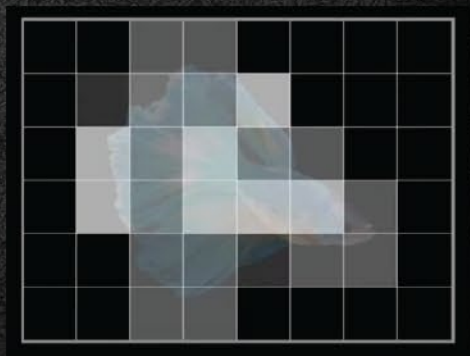

NEW

2,000+ dimming zones

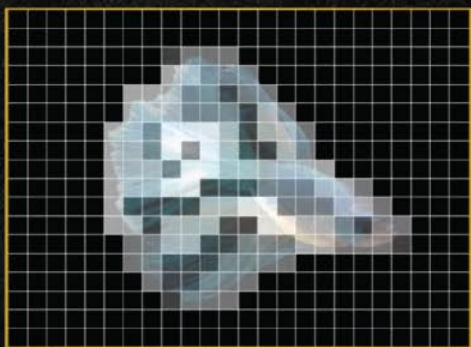

Numbers
of LED 88x*

Truly sparkle. Experience enhanced contrast by the precise backlight control technology which enables to independently drive 2,000+ dimming zones.

88x*
backlight LEDs
6x*
of brightness

Without Xtreme Brightness

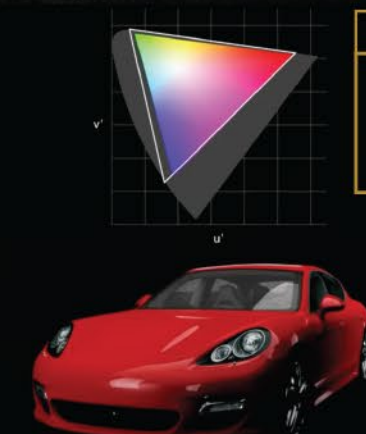

With Xtreme Brightness

Truly bright. Get a dazzling light by driving the dramatically increased **88x*** **backlight LEDs** which brings **6x*** of peak brightness vs. conventional 4K model.

Deep Chroma QD
more than
20%
up* color
coverage area

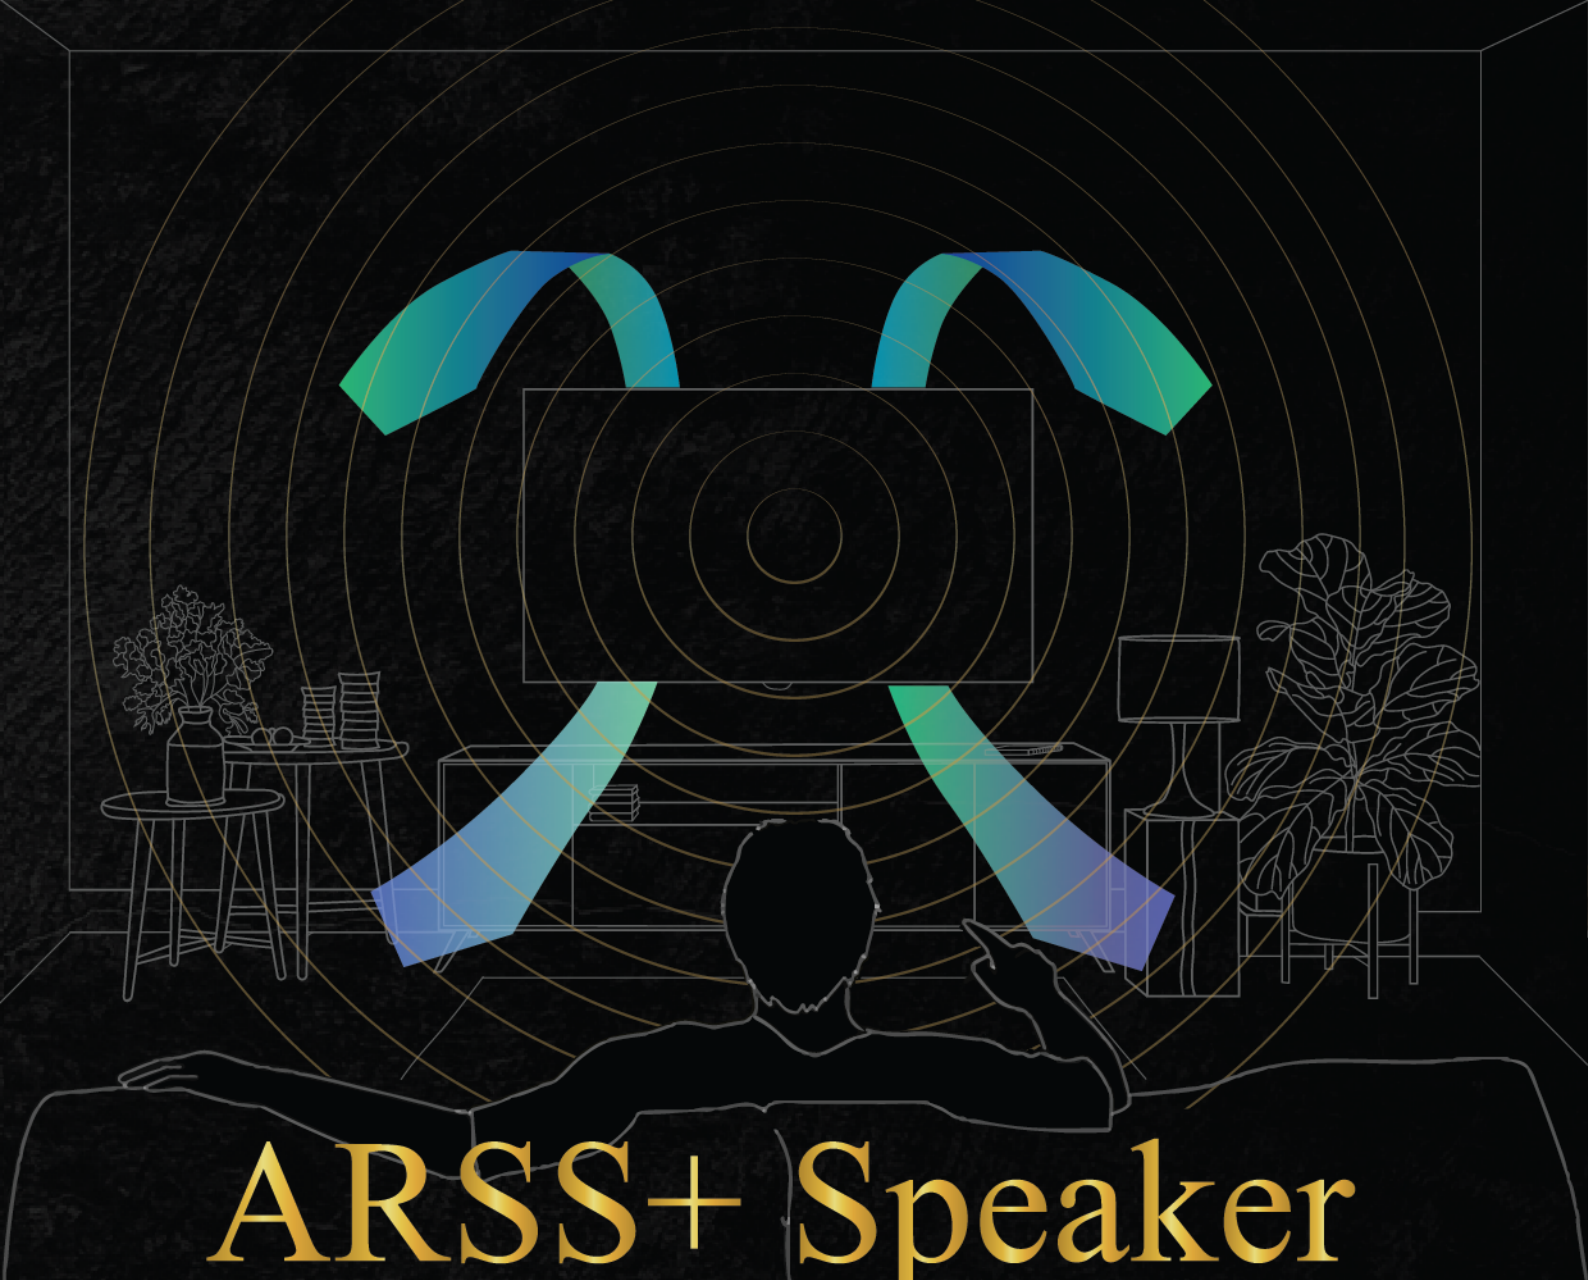

Conventional
(White LED)

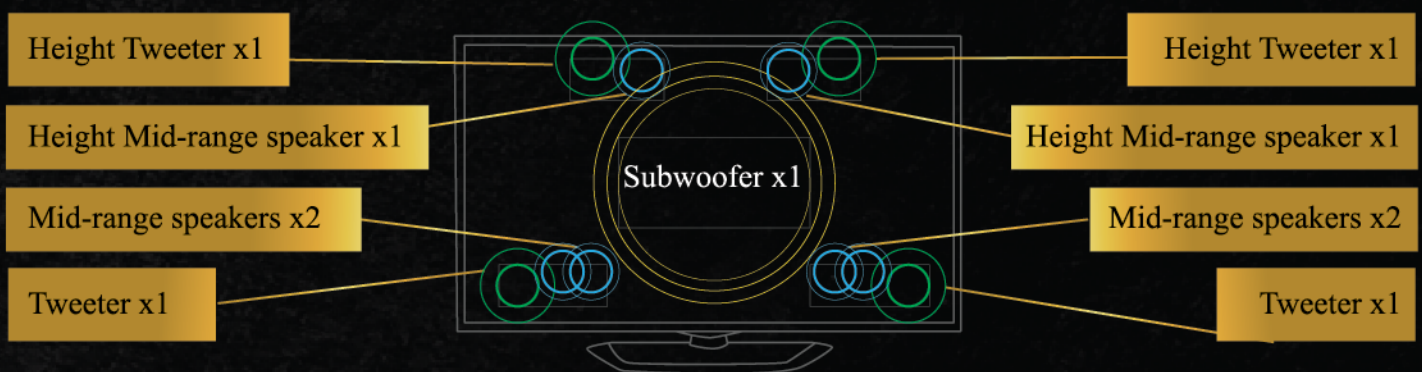

NEW
Xtreme mini LED &
Deep Chroma QD

The highest color representation in the history of AQUOS. More than 20% up* of color gamut coverage area compared with conventional 4K model displays.

ARSS+ Speaker Surround System

AQUOS XLED comes with ARSS+ speaker system, which is equipped with 11 speakers surrounding the screen. Reproduction of the rich sound quality is enabled by the combination of speakers excelling in the high, mid, and low frequency ranges.

Level Up Your Entertainment Experience

4K 120Hz

AMD FreeSync Premium

With support of 4K 120Hz, FreeSync Premium™ and VRR/ALLM, gaming worlds feel more immediate and immersive.

Dolby ATMOS

Dolby VISION IQ

Visual and Sound

Immerse in multi-dimensional sound with Dolby Atmos while admiring Dolby Vision's work in optimising picture quality using metadata and the TV's built-in light sensors designed to match the content genre and ambient surroundings.

X5

Revelation Processor

AQUOS XLED equipped with the powerful processor to bring your entertainment, games, sports to the next level.

VRR

Variable Refresh Rate

Dynamically synchronize the TV display rate to the signal coming from the PC/Gaming. Supported by FreeSync™ Premium which is an adaptive technology by AMD.

ALLM

Auto Low Latency Mode

Automatically switch latency levels between low and normal without switching the settings on the remote control while gaming.
